

Wowza Media Server 4 Crack

The screenshot displays the Wowza Streaming Engine Manager web interface. The browser address bar shows the URL: http://localhost:3088/enginemanager/Home.htm#application/_defaultVHost/_app/new/new/. The page title is "Add Application | Wowza St...". The navigation menu includes "Home", "Server", and "Applications". The main content area is titled "Add Application" and "Select an Application Type." It features two columns of application types: "Live" and "Video On Demand".

Live Applications:

- Live (Single server or origin)
- Live Edge
- Live HTTP Origin (Origin for non-Wowza edges)

Video On Demand Applications:

- VOD (Single server)
- VOD Edge
- VOD HTTP Origin (Origin for non-Wowza edges)

On the right side, there is an "About Applications" section with a "Hide Help" button. The text explains that an application is a set of configuration options for a specific use case. It also includes a "Note" stating that the software includes default applications named "vod" and "live".
